

inomed Polska is celebrating its 10th anniversary

Working its way up, inomed Polska made it to the top of the IONM market

On 8th November 2017 inomed Polska reached a milestone in its company history - 10 years of successful medical technology. To celebrate the anniversary, inomed invited employees, business partners and several renowned clinicians to a gala dinner in Sopot on 12th January 2018. The anniversary festivities were accompanied by music, dances and several show acts.

Within the official part of the evening Rudi Mattmüller, CEO of the inomed corporation, and Mariusz Gruchala, Managing director of inomed Polska, looked back upon a decade of corporate history. Emphasizing the great developments and achievements of the past years, they encouraged to focus on this direction.

“inomed products have helped to enhance the quality of life for patients for many years. Our mission is to promote the method of IONM as key technology for preserving patient safety and to expand the market not only in Poland but also in Eastern Europe. Looking back on what we achieved so far, we are heading in the right direction,” remarked Mariusz Gruchala, Managing director.

inomed Polska – market leader in intraoperative neuromonitoring in Poland

Since its foundation in 2007 inomed Polska has grown rapidly and established itself as well-known partner and market leader for medical technology in intraoperative neuromonitoring. Over the last years inomed Polska acquired key clinics and built up a comprehensive network. The majority of clinics in Poland rely on inomed products to ensure maximal safety during surgical procedures for patients as well as clinicians.
